Musical biography

I was born in a suburb just outside Stockholm called Kärrtorp.

I started my music carrier in the Adolf Fredrik music school (completed 1981). I continued in the Bethel Seminarium, music school (completed 1985). After that I toured a couple of years with different bands, then started in the Stockholm music conservatory (completed 1996), studying vocals.

I have also five years experience of teaching the side flute. I continued my musical education in the Royal College of Music in Stockholm (completed 2005).

Music and singing has always been a large and significant part of my life.
